

TIPS & TRICKS - EYW PRO

1. **DJI OSMO POCKET:** These latest 4K cameras are stabilised and can achieve great results, recording 4k video that will look stunning on a large Tv screen. Each camera has a 128gb micro SD card and will record at least 2 hours of 4K video.
2. **USING YOUR CAMERA STRAIGHT FROM THE BOX:** You can start using your cameras in their basic mode straight out of the box. Use the right hand button to switch on and off, use the left hand button to start and stop recording. Press the right hand button twice to centre the camera and use the right hand button three times to switch to selfie mode and back again. That's it!
3. **SEE THE BIGGER PICTURE:** You can attach the Osmo Pocket to your iPhone using the Lightening Connector on the front. Download the free DJI Mimo App, switch on the camera and plug it in to the phone. You will then get a bigger preview of the video you are shooting. This isn't necessary to shoot great footage, but some people find it easier. There is also a USB connector in the box which may work for non-iPhones.
4. **GET ADVANCED:** Please go to the following webpage, where you can watch videos and download the user manual for the Osmo Pocket - this will allow you to learn about the more advanced functions of the camera, including active track and different gimbal modes.

5. **CHECK YOUR CAMERAS ARE WORKING** - As soon as your cameras arrive in the post, make sure they are working. There shouldn't be any problems as we check them before dispatching but if you check them on the day of arrival it will give us a chance to get a replacement out to you in time.
6. **CHARGING YOUR CAMERAS** - Your cameras will arrive fully charged. If you do find that you want to give them an extra charge throughout the wedding day you can plug them into any USB charger or computer using the cable provided (it goes into the bottom of the camera)

7. **HELP THE EDITOR (The six second rule)** - Try to hold each shot for at least 6 seconds before changing your position. This will enable the editor to cut easily between shots.
8. **DON'T CHANGE THE CAMERA SETTINGS** - The settings on the cameras are optimised for our requirements when we edit. Please do not change these settings as this could have an impact on the quality of your final video. The only buttons that you need to press are the power / function button and the record Button. Please feel free to email us if you have any questions on how to operate the cameras.
9. **SHOOT THE DETAILS** - Try to shoot as many details as possible ie. Bride's shoes, Table Decorations, Wedding cake etc. Film the Bride and bridegroom getting ready – hair makeup etc. The more interesting shots you get the prettier your wedding video will be.
10. **DON'T FORGET TO SHOOT THE BRIDE AND GROOM!** - This one may sound silly but you would be amazed how many people forget to take lots of video of the Bride & Groom. Perhaps they feel in the way or simply get carried away filming their friends. To get a really great wedding video we must have lots of shots of the happy couple.
11. **SHOOT THE CEREMONY** - You have multiple cameras. For the ceremony try to shoot from different angles. Let's see the faces – don't be afraid to get up close – ie. behind the altar. Get some footage of the guests watching the ceremony, then we can cut between two or more cameras and make it a day to remember!
12. **GET MINI INTERVIEWS** - Try to get mini interviews of various guests throughout the day. Get them to talk about the day and even record a special message for the bride and groom.
13. **AVOID SHOOTING TOO MUCH OF THE SAME THING** - Try to capture highlights of the whole day rather than using up all of the memory with one aspect ie. filming the whole ceremony or filming all of the speeches. You ideally want clips from throughout the whole day. Key moments like the first dance, cutting of the cake etc. Avoid shooting too much of the disco in the dark.
14. **RECORDED DELIVERY RETURN POSTAGE** - When returning the cameras, make sure to send them recorded delivery. They will be full of all your magical memories so we would not want them getting lost in the post. Also please return all of the packaging in the original box. There is a return addressed label already in your box. If lost, return to **Nigel Taylor, 141 Palace View, Bromley, Kent BR1 3EP**
15. **RECOMMEND US TO YOUR FAMILY AND FRIENDS** - Please pass on your video link and recommend us to family and friends. We hope you've enjoyed your Edit Your wedding experience:}
